

CHFD Program Meeting Minutes
April 10, 2012.

In attendance: Lamorey, Smith, Rebich, Shue, Murphy, Sherry, Brown, Correa, Lara-Cinisomos

1. Changes to EE6

Ms Murphy reported that her "team" successfully divided the components of EE6 into CHFD 3116/5116 and student teaching. She has agreed to inform Emily Stephenson-Green of the changes.

2. Update on Enrollment

Dr. Lamorey reported that there are 2 new Grad Certs possibly applying for summer session; 0 M.Eds applying. We have a large number of minors who have added our program and a growing number of pre- BK students are evident in the 2000 level courses.

3. Effects of small numbers of applicants to Grad Cert...course sequence for spring enrollees vrs fall enrollees. Where do they take 5100 besides a cross-list with 3115? It was decided that since our Grad Cert classes and Undergrad classes are both for individuals seeking initial certification, if necessary we would cross-list courses if low enrollment becomes a problem.

4. The MAT program was approved at the Departmental Meeting, and will be forwarded for the College level review.

5. A disposition issue arose with one of our undergraduate students who is perceived by classmates as not participating in class projects and is tardy/absent from classes. We decided to keep an eye on her GPA, and Dr. Lamorey will speak with her during advising opportunities about program expectations.

6. Dr. Lara-Cinisomos will be leaving our program to participate in a post-doctoral program in Chapel Hill. We wanted to plan a "going away" dinner for her, and faculty will look into dates/times.
